No. G. 18091—*San.* 30-19-6, *dated 7th February* 1920.

The following Press Communique issued by the Government of India, Department of Education, dated Simla, the 14th June 1919, is republished for general information:—

A case of anthrax in man arising from the use of an infected shaving brush recently occurred in India. Though the danger of contracting this disease in this manner is limited in extent, it constitutes an appreciable risk and as similar cases have been known in other countries also, it ought to be guarded against. A simple way of eliminating all risk is to immerse a new shaving brush for about 10 hours, *i.e.*, overnight in a 1 to 1000 solution of corrosive sublimate or to boil it.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

The recurring monthly charges consisting of (*a*) the cost of the power consumed, (*b*) depreciation charges at 5 per cent of the initial cost will be borne by Government, and the Arrack manufacturing contractors in the proportion of 1 to 2 for the portions of the buildings in the occupation of each. The cost of the renewal of lamps, bulbs, etc., will be undertaken by Government unless there is wanton damage, in which case the cost will be recovered from the party concerned.

II. The contractor will be required to keep in store at the Central Distillery, ordinarily, a supply sufficient for a month's consumption (50,000 gallons at the present rate of consumption) and *never less* than 35,000 gallons of admissible spirits in terms of 35° under-proof and also a month's supply of special liquors.

III. The articles used in distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special liquor after it has been manufactured. The spirits manufactured shall not be adulterated or diluted, save by addition of Hessarghatta filtered water or distilled water for the purpose of reducing strength to the authorized degree.

IV. In outlying tracts where, owing to the small consumption or other causes there is reason to suspect illicit distillation, Government will be at liberty to establish out-stills, after giving the contractor the first refusal of so doing.

V. (1) The contractor shall issue at the Government Distillery to the Senior Government Officer in charge thereof, such quantity of arrack and other spirits as may be indented for by him for supply—

1*st*. To such Bonded Depots as Government may from time to time, establish and maintain. After the issues are made, the Distillery Officer shall issue a cheque on the Treasury Officer, State Huzur Treasury, to the contractor and in his favor for the value of arrack and other spirits issued.

(2) The contractor shall have no interest in the retail vend of Arrack. Nor shall he employ as agent or in any other capacity in the Distillery any person having such interest.

VI. The contractor shall be bound to conform to the provisions of the Excise Laws for the time being in force in the Territories of Mysore and in the Civil and Military Station of Bangalore; and he shall see that all his employees give full effect to them.

VII. The out-going contractor shall give and the in-coming contractor shall take over, any arrack or other country spirits and special liquors not exceeding a month's supply which may remain as stock in hand on the last day of the expiring contract, the latter paying the former for the same such value as may be fixed by the Excise Commissioner.

VIII. Should the in-coming contractor or the Excise Commissioner so require by at least one week's previous notice in writing, the out-going contractor shall cease preparing "Wash" during the last month of the expiring contract, and vacate the buildings so as to admit of the in-coming contractor commencing operations. Should no such notice be given, the out-going contractor may continue distilling till the end of his contract, after which further distillation by him must cease. The in-coming contractor shall issue arrack and other country spirits and special liquors from the Distillery to Bonded Depots, if so required by the Excise Commissioner in sufficient time (not exceeding two weeks prior to the commencement of his contract) to have his supply ready in all Bonded Depots for issue from the 1st July of the first year of his contract.

IX. The out-going contractor shall sell, and the in-coming contractor shall buy, all apparatus and stock and block belonging to the former at the Government Distillery near Bangalore, for a fair and equitable price to be fixed by the Excise Commissioner, calculating the original cost and deducting therefrom such portion of it on account of depreciation as may be considered reasonable. The present valuation comes to Rs. 1,21,000 as per list attached.

X. Improvements of a permanent nature shall be retained and shall not be disturbed except with the approval of the Executive Engineer.

XI. In case of a breach of any of the above conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the contractor and all his apparatus and stock and block, forfeited, and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.

XII. The contract shall not be transferable except with the consent of the Government of His Highness the Maharaja of Mysore.
